## WENTE FAMILY ESTATES SELECTS DATASERV SAAS FOR INVOICE WORKFLOW

---

**St. Louis, MO – May 19<sup>th</sup>, 2010** – As part of its finance improvement process initiative, Wente Family Estates has selected the [DataServ](#) Purchase-to-Pay (P2P) solution set to automate their Accounts Payable processes.

DataServ and Wente Family Estates have entered into a new five-year agreement under which DataServ will provide their AP Invoice Visibility and Control solution with Automated Workflow and AutoVouch modules. This sophisticated Software as a Service (SaaS) solution will provide Wente Family Estates with all of the benefits of the latest in document automation technology without the capital investment, technological obsolescence or IT resources associated with traditional software. This translates into significantly lower costs for Wente as well as enhanced financial control and visibility.

Art Jeannet, CFO of Wente, commented on his company's decision to purchase the DataServ P2P solution, stating, "As Wente Family Estates continues to expand our wines nationally, we wanted to improve Accounts Payable processing for all our North American operations while minimizing the need for IT resources and leveraging the capabilities of our AMS inventory system to the highest degree possible. DataServ's P2P solution allows us to do this quickly."

The client's decision to purchase the DataServ SaaS P2P offering gives them the ability to work more efficiently with increased operational controls. Jeff Watson, DataServ Account Manager for Wente, states, "The fact that our solution can accept any document format is important considering that the client processes tens of thousands of documents annually. Plus our state-of-the-art Data Center adds a level of confidence for them that their documents are always accessible and secure."
